

PROJECT
Annual Sizing and Share Report

CLIENT

OBJECTIVES

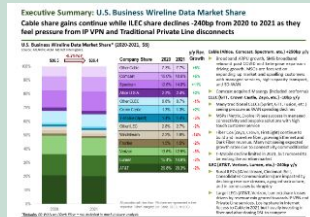

- **Business:** Overarching trends like legacy network decommissioning, Cloud migration, SD-WAN, Dark Fiber, and UC
- **Wholesale:** Retail Trends Impacts, dynamics within the Wireless, Data Center, and Voice spaces
- **Consumer:** Bandwidth Growth, Supply, Wireless Voice Adoption, and Fixed Line Voice Services
- **Wireless:** Device Growth, Bandwidth Growth, IoT, Pricing Pressure

CASE STUDY

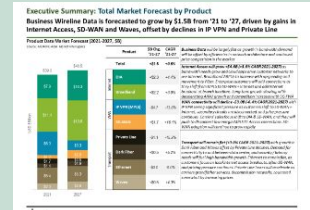

ATLANTIC-ACM provides an overview of market trends across major segments, includes revenue forecasts, competitor sizing & share analysis

APPROACH

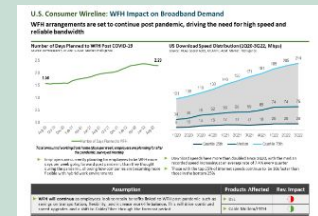

ACM conducts surveys, detailed financial tracking, interviews with industry insiders and consults government databases and industry reports

ACM combines survey data and other research to provide detailed information on market dynamics that drive key forecast assumptions

ACM holistically models each product ecosystem as well as influences between markets to accurately forecast future demand

OUTPUT

ACM breaks down and forecasts the US Telecom Market by product, provider, and provider type in its annual Sizing and Share Report
